

Classic Car Club

about the venue

A central and adaptable venue with capacious floor space. Additional exterior street frontage is also available. The club's extraordinary collection of prestige, rare and vintage cars can be used to dress the venue and add impressive visual interest for your guests. The cars range from a gleaming vintage 1959 Jaguar XK through Maseratis, Mercedes, Porsches, a US Army Jeep complete with machine gun to growling contemporary classics such as the BMW E39 M5 and Aston Martin DB9.

The venue has been hired for events, launches and stills, with previous clients including Dave TV, Harrods, Red Bull, Stella Artois and even used as a boxing ring by The Real Fight Club.

Located close to the City, the venue is central and convenient with a Northern Line Underground station a two-minute walk away.

A separate reception and office space is located off the main event space, as are the venue's two WCs. A colourful vintage Citroen H van is available on site which has already been adapted to act as a bar or serving point. Items from the Club's extensive collection of auto memorabilia are also available to hire as props or additional dressing for your project's theme.

- space: 8,000ft² internal, 2,000ft² exterior
- capacity: 500
- location: london, ec1
